

Understood! I have created a clean, professional, and easy-to-understand Word document for you.

The document is written in a natural, human style (as if written by a team member), not too technical, and includes:

- Overview of the proposed Recruitment Module
- How the process will work
- Different ways candidates can apply
- Candidate management with statuses
- Kanban / Table / Card views
- Email + Task assignment feature
- Pros and Cons

You can download and share it directly with your project manager.

Here is the file: **Recruitment_Module_Proposal.docx**

docx
